

HOMEPULSE • LOUISIANA DCFS

Pricing

Every channel routes through one intelligence core. Signal is priced per home, because the check-in reaches a household. Routing is priced per youth, because a resource is for a particular child and one home may have several.

HOMEPULSE — THE PERSON REPORTS THEIR OWN NEED

CHANNEL	SIGNAL	ROUTING
HomePulse — Caregiver	\$100 per home per year	\$100 per youth per month
HomePulse — Family	\$100 per home per year	\$100 per youth per month
HomePulse — Youth	\$100 per youth per year	\$100 per youth per month

Signal is priced per home because the check-in reaches a household. Routing is priced per youth because a resource is for a particular child, and one home may have several. The youth channel is priced per young person on both lines and is available at 13 and older.

SIGNAL CHANNELS — REPORTING ABOUT A CHILD

CHANNEL	SIGNAL	ROUTING
HomePulse — Law enforcement	\$100 per home per year	None — routed by the worker
HomePulse — School	\$100 per home per year	None — routed by the worker
HomePulse — Provider	\$100 per home per year	None — routed by the worker

Nothing is sent back to these reporters, so they carry no routing line. What comes in reaches the caseworker, and the caseworker routes a resource to the family on the base already in place.

HOMEPULSE ASSIST — IN THE LOOP WITH THE CASEWORKER

WHAT IT IS	PRICE	UNIT
An intelligent assistant for caseworkers. Supports the caseworker with intelligence, protocols, and next-step recommendations.	\$100 per worker per month	Per caseworker

Priced per worker because it serves the workforce rather than the household. Assist is the worker-facing layer on the intelligence core.
